

Please reconsider the a la carte cable regulation proposal as it would be entirely detrimental to families!
I for one believe that all broadcast ministry/religious programming should be FREE!!

1. Most individuals who benefit from religious programming can't afford special pay channels for this.
2. Most individuals who are concerned with family safe programming will refuse to pay extra for this service.
3. The people that religious programming is trying to reach out assistance to are the people who would not normally pay for this type of programming - they only turn to this in time of need. If they have to subscribe to it first then in most cases it would be too late!

I for one refuse to pay for cable/satellite programming period due to the fact that there is TOO MUCH IMMORAL PROGRAMMING which in my opinion should be banned entirely!!!

I only view free, moral programming and if that gets taken away I will remove all TV's from my house!!
If you want to put an a la carte regulation on something put it on trash like professional wrestling and all programming with a rating above PG. ALL programs that Parental Discretion is Advised should not be freely accessible to the public!!!!!!!!!!
This is one of the major reasons our country is in the condition it is today - you are contributing to the decay of our country by your lax moral standards!

Separation from church & state is so that the government should not have any regulations on the Church - not vice versa!!!!

Thank You!
